No. 17

## GOV. WILSON IS ELECTED

President of the United States.

Roosevelt Runs Second and Taft Handily in the Race, Carrying One or Two States.

Washington, November 5.—The real significance of the election as it affects the Progressive movement is that it puts the Progressive party ahead of the Republican party and makes it the strong competing force with the Democracy in the next presidential campaign. Theodore Roosevelt runs second to Wilson in practically all the States, except those which he carried.

Indications are that Roosevelt has carried Illinois, Pennsylvania, Vermont, California, Oregon, Washington, Michigan, North Dakota, South Dakota and Minnesota with a total of 121 electoral votes. This would leave Gov. Wilson 27 votes in the college.

The Democratic sweep of the Nation is so complete as to be for the time being beyond realization. They will elect the Governors of nearly all the States, which choose Executive this year. Thus, while Roosevelt carried Illinois, a Democrat, Duane, is elected Governor by a big plurality.

HOUSE IS DEMOCRATIC  
The next House of Representatives will be Democratic, with not less than 20 Democrats, not more than 10 Republicans and the rest, 35, divided who, while Progressives, run with the support of both the regular Republicans and the Progressives.

The Senate will have a Democratic majority so large, from present indications, as to make it uncertain whether the Progressive group which started the warfare within the Republican party will any longer hold the balance of power they have wielded since the tariff session of 1909.

Among Republican members of the House who are defeated on the face of returns to date are:

Joseph H. Cannon, former Speaker; James R. Mann, of Illinois; Republican Floor Leader; Ebenezer J. Hill, of Connecticut; Nicholas Longworth, of Ohio; William B. McKinley, of Illinois; George E. Ross, of Illinois; Martin E. Madden, of Illinois; William A. Rodenberg, of Illinois; Charles A. Kennedy, of Iowa; Gilbert N. Hayden, of Iowa; Charles E. Pickett, of Iowa; Solomon P. Root, of Iowa; Edgar B. Crumpacker, of Indiana; Cyrus A. Sullivan, of New Hampshire.

EAST FOR WILSON.  
The East went for Wilson with a tremendous sweep. New York piled up a plurality of from 10,000 to 20,000 for him. Massachusetts may carry its Wilson figures up to 75,000. Maine has gone for Wilson, and Connecticut has done the same.

Pennsylvania is pretty certain for Roosevelt, who was conceded early to have carried Philadelphia and who was reported to be making a great run in Pittsburgh and the Pittsburgh district.

Ohio will be for Wilson by a tremendous plurality, possibly even by a majority. Hamilton County (Cincinnati) went for Wilson by about 17,000.

VERMONT IS ALMOST CERTAINLY FOR ROOSEVELT WITH TAFT RUNNING SECOND AND WILSON THIRD. It is probably the only State in the Union in which Wilson has run third.

CARRIERS SHERIDAN HOME.  
New York State, both city and up-State, has gone for Wilson. The rule is that even in years when the State goes as a whole to the Democrats, the Republicans carry the up-State. This time they appear to have got all the units the greater cities in all its boroughs, Buffalo, Rochester, and the rural sections.

The city of Syracuse went Democratic for the first time in its history, giving Wilson 1,000 plurality. Wilson also carried Utica, the home of the late Vice President Sherman. Illinois still has two Democrats in the Senate, one of whom will be James Hamilton Lewis, nominated in the primary; no nomination has been made for the other seat.

COLOMBIA WILL SEND TWO DEMOCRATS TO THE UNITED STATES SENATE. A Democrat will be sent to the Senate, according to reports, to succeed Senator Burroughs, of New Hampshire.

DIXON IS DEFEATED.  
Montana will send a Democrat to succeed Joseph M. Dixon, manager

of the Progressive campaign in the Senate. Nebraska will send former Governor Shallenberger, Democrat, to the Senate as successor to Norris Brown, Republican.

New Jersey will send William Hughes, probably Mayor "Boss" Kiss' Fitzgerald, to succeed Senator Craig. Oregon will probably send Harry Lane (Democrat) to the Senate to succeed Jonathan Bourne, (Republican).

SOCIALIST BERGER DEFEATED.  
Milwaukee, Wis., Nov. 5.—Congressman Victor L. Berger, of Milwaukee, the only Socialist in Congress, was defeated for re-election by former Congressman William M. Stafford, who ran as a Fusion candidate on the Democratic ticket.

ROOSEVELT GETS MICHIGAN.  
Detroit, Mich., Nov. 5.—Returns from 15 out of 125 State precincts show Taft 12,347; Roosevelt, 29,549; Wilson, 14,966. This does not include the incomplete count on many of the Detroit precincts. For Governor the 15 precincts show Roosevelt, Republican, 7,341; Taft, Democrat, 3,154; Watkins, Progressive, 5,332.

WILSON AHEAD IN OHIO.  
Cincinnati, O., Nov. 5.—Gov. Woodrow Wilson was running ahead of President Taft in the latter's own State when the first 30 precincts of the 521 in the State had been reported, the returns giving the Democratic candidate 17,229 votes to 14,297 for President Taft and 6,899 for Col. Roosevelt.

KANSAS TO ROOSEVELT.

Topoka, Kan., Nov. 5.—Morgan returns

(Continued on Eighth Page.)

## MAGISTRATES HAVE NO RIGHT

To Supervise County Roads, Says Judge Winn of Appellate Court.

Frankfort, Ky., Nov. 2.—Judge R. H. Winn of the Court of Appeals delivered an opinion this afternoon, after hearing arguments in chambers, in an important road case from Anderson county.

County Judge Probst had appointed a road supervisor but the records of the Fiscal Court of Anderson do not show that the appointment was confirmed, but on the contrary the magistrates proceeded themselves to supervise the road work. The road supervisor filed an injunction suit to prevent the magistrates from interfering with his work. The lower court granted the injunction but the Court here dissolved the injunction on the ground that the appointment of Champion as road supervisor was never confirmed by the magistrates. The court says, however, that the magistrates have no right to supervise the roads and that the law providing for the appointment of a road supervisor must be complied with.

The decision is regarded as an important one, as in a number of other counties the fiscal courts have declined to select a road supervisor and this decision means that magistrates cannot serve as road supervisors, as they did under the old law.

## Woman Suffrage Soon.

San Francisco, Nov. 4.—Votes for women, the world over, and that soon, is the prediction made by Mrs. Carrie Chapman Catt, president of the International Woman's Suffrage Alliance, who arrived from the Orient today, after campaigning and investigating conditions among women of Europe, Africa, Asia and Polynesia.

"Women are voting today in parts of China and in Burma, where they are led by a Buddhist woman of great ability," she said.

"In Persia, the movement toward equal suffrage is strong, and at the alliance it is probable a Persian delegate will be present."

"Even in Africa, Java, Sumatra and the Philippines, the tendency of the times can be felt."

## FEDERAL CONVICT'S WORD IS RESPECTED

Prisoners Are Placed on Their Honor.

Road improvement Outside Penitentiary Made by Trusted Inmates.

Leavenworth, Kansas, November 2.—Every morning twenty prisoners leave the walls of the Federal Prison behind them and until 5:35 o'clock in the evening enjoy as much freedom as does the average laboring man. Under the supervision of Deputy Warden Mackey these men are constructing, without cost to the county, an up-to-date macadam thoroughfare and are also improving the appearance of the prison's surroundings. The men have given their word that they will make no attempt to escape, as no guards are placed over them. The average person would think that the gang was one employed by a private construction company were it not for the uniform prison garb in which they are clothed.

The stone used for the road is broken in the prison yard. Eighty men are now employed doing nothing but breaking rock, each turning out five wheelbarrow loads each day. It is estimated that in a week the eighty men will break from 1,000 to 1,200 wheelbarrow loads of stone which have accumulated since the work of construction was started on the prison is being used for this work.

As soon as the work on the road is completed the men will start constructing a sidewalk from the end of Broadway to the car station. It is to be 5 feet wide and brick burned in the prison kiln will be used. Between the road and the sidewalk a parking is to be laid out, which will be about 10 feet wide. A row of trees is to be sown in the spring.

"We expect to have the road macadamized in about six weeks or before cold weather sets in," said Deputy Warden Mackey yesterday. The men are doing fine work and I doubt if a contractor could get more work out of a gang the same size.

"The men have given their word of honor that they will not try to escape, and so far we have had no trouble of any kind. There are no guards over the prisoners and they are practically free during the day. At noon their dinner is sent out to them and is eaten in a tent erected in the orchard. The men are allowed to smoke during the noon hour. Sugar is served in the prison early, but those employed on the road gang are given a late supper."

"The work in the open appeals to the prisoners and the employment on the road tends to keep them in better humor and in a healthier condition."

## Schrank Says Roosevelt Should Plead for Him.

Milwaukee, Wis., November 2.—Entertaining the impression that Theodore Roosevelt does not bear any malice in his heart toward him and adopts the same attitude of forgiveness as held by presidents who have been assassinated, John Schrank, would-be slayer of the colonel, expects to escape with a light sentence.

Schrank confided these expenditures to Bernard H. Gottschalk, who occupies a cell near him. Gottschalk is a former resident of New York.

"Theodore Roosevelt is only human after all," Schrank said, according to Gottschalk. "He was shot and has recovered. Now that it is all over he has had time for sober reflection and his better self surely has led to the conclusion that I should be pitied and not condemned. When McKinley was shot he showed forgiveness."

"The entire case rests with Roosevelt. I know if he will come here and speak for me and adopt the broad view of the matter, I will get a light sentence. His word will settle the whole matter. I should think he would come here when the case is tried."

## New Meat Shop.

I have opened up a meat shop in the Riley stand, in connection with the Commercial Hotel and will be pleased to have you call on Mr. The Sander for your meats, and anything usually kept in a first class meatshop. Prices right. Your patronage solicited. Telephone No. 181. All goods delivered. 54th Adv. J. P. JASPER.

## CROSS-CONTINENT ROAD IS POPULAR

Kansas Takes Warm Interest in Highways.

Project to Cost \$10,000,000 but Will be Cheap at That.

Hutchinson, Kan., November 6.—Hutchinson and all this part of Kansas are deeply interested in the national movement now being launched to build a macadam highway from the Atlantic to the Pacific across the continent. For in all probability the new national highway will pass through Hutchinson, following the line of the Santa Fe Trail.

Interest in the proposed highway to extend from New York to San Francisco, plans for which were outlined a little more than two weeks ago, is now at its height. Pledges for the fund of \$10,000,000 which will be necessary, to defray the expenses of making the road are pouring in from all sides and present indications are that the entire sum will be pledged by January 1.

Steps will be taken shortly for the appointment and organization of a national committee which will make complete charge of the work, and just as soon as the plans of this body are completed and the entire amount needed is pledged, contracts will be closed with the various counties through which the road will pass for the actual work of building the road. It is fully expected that by May 1, 1915, the ocean-to-ocean highway will be a reality.

This is the biggest project ever undertaken in the automobile world. The original plans, which are the result of months of study on the part of Carl G. Fisher and James A. Allison, president and secretary, respectively, of two big, have been carefully examined by leading manufacturers and financiers all over the country, and have been endorsed by them as being safe, sound and entirely possible of execution.

Within thirty minutes after the project was explained by Mr. Fisher at a banquet in Indianapolis recently a sum of over \$30,000 had been pledged by the automobile manufacturers and dealers of the Hoosier capital alone. Those connected with the automobile industry in other cities and states have not been slow in responding.

Bonded trust companies will be appointed to receive pledge payments as they are made and not a dollar of this money is to be spent until the entire fund of \$10,000,000 or more is guaranteed. In case that for any reason whatsoever the ocean-to-ocean highway project should fail to be realized, the money already contributed will be returned to the original donors with 3 per cent interest added. All expenses incidental to the promotion of the plan are to be met by Mr. Allison and Mr. Fisher personally, up to the point where the venture is either a success or a failure.

One thing which stands out prominently in connection with the ocean-to-ocean highway and differentiates it from other good road movements started in the past is the fact that the expenses for the building of the road will be borne entirely by automobile and accessory manufacturers, dealers and owners.

Manufacturers and dealers will pledge themselves to contribute to the fund being raised for this purpose, the amount being one-third of 1 per cent of their gross earnings for three years, or one-fifth of 1 per cent of their gross earnings for five years, as will be decided later by the National Committee.

Automobile owners are given a chance to contribute to the fund by taking out memberships in the Ocean-to-Ocean Highway Association, these memberships to cost \$5, \$100 or \$1,000.

In this way the road can be built without expense to the general taxpayers of the country. Politics has been entirely eliminated from the scheme and there will be no political disputes or quarrels to interfere with the progress of the road. Crushed rock and other material necessary for the building of the highway will be delivered to the points where it is to be used. Contracts through which the road passes these counties to take charge of the construction work under the supervision of United States Government engineers.

It has been figured that this plan of handling the purchase of material and the labor incident to building the road will result in a gigantic saving

as contrasted with the ordinary method of road contracting.

Taking as a basis the best rock roads in Northern Indiana and Northern Ohio, the ocean-to-ocean highway, which will cost \$10,000,000, will in reality be worth \$25,000,000, since a private contractor's profit, usually from \$800 to \$1,000 a mile will be saved.

## The Veterans A Living Force.

What a rare privilege it is to look into the faces of the veterans of the Civil War and speak to them on Memorial Day! How much they appreciate words that are not dipped in brim, reminding them of their faltering steps and pale hands, and of how quickly they are going down the decline of life.

Nothing can ever abate the courage and activity of the veteran of the Civil War. He cannot be relegated to the shadows of retirement. This fact was most emphatically brought out in Washington by both Confederate and Federal in making preparations for the fiftieth anniversary of the Battle of Gettysburg. It is planned that forty thousand veterans shall assemble at the famous battle ground, where the struggle of 1863 will be re-enacted, and from all over the Union people will gather to celebrate the decisive battle of the war.—Joe M. Chapelle, in "Affairs at Washington," in National Magazine.

## Fire Destroys Jenkins Property.

A two story frame house, owned by the Rev. R. F. Jenkins, of Owensboro, and occupied by Welsh Coots and family one-quarter mile west of Habit, was destroyed by fire Monday morning. The house was valued at \$1,500, and the total damage done by the fire will amount to \$1,000. Partial insurance was carried. The origin of the fire is unknown, although it is supposed to have originated from a defective flag.

All the household effects on the lower floor were saved, but there was a loss of \$50 on beds, bedding, etc., upstairs. Mr. Coots carried no insurance. He is having a new home erected, which will be ready for occupancy in about three weeks.

## PROHIBITION PARTY FOUNDER IS DEAD

"Father" John Russell, First Vice Presidential Nominee, Passes Away

Detroit, Mich., Nov. 4.—"Father" John Russell, founder of the Prohibition party and the oldest Methodist preacher in the Detroit conference, is dead at the home of his daughter, in this city. He was born in Livingston County, New York, in 1822.

"Father" Russell co-operated with most of the leading temperance organizations during his life, such as the Sons of Temperance and the Good Templars, was twice at the head of the Order of Good Templars of the World, and presided at the first session of the order ever held in England.

He wrote the call for the first national first speeches in favor of the organization of an independent political party on the issue of prohibition. He wrote the call for the first national convention at which the party was organized in Chicago, and was the party's first candidate for the vice presidency, in 1872.

For years he was the recognized leader of the Prohibition forces of the country.

## Nashville Reservoir Bursts.

Nashville, Tenn., Oct. 4.—A six-foot wall of water swept south of Eighth avenue when the east portion of the city reservoir burst shortly before midnight. Several houses were washed from their foundations and the sleeping occupants saved themselves by climbing into trees. A breach 100 feet wide in the wall was made. A number of residents are missing, but none are known to have lost their lives.

## Ohio County Vote.

The Ohio County Board of Election Commissioners have not met to canvass the returns of Tuesday's election, hence we are unable to give an exact vote of each precinct in the county. However, next week we shall publish the vote by precincts. The following is an estimated total vote of the County.

Democrat 2,559  
Republican 1,151  
Socialist 24  
Prohibition 25  
Progressive 1,549

## HOSPITAL IS OPENED

Breathitt's First Institution For Care of the Sick.

New Hospital Had Hard Time Raising Money and Has interesting History.

Lexington, Ky., Nov. 3.—The first hospital ever established in "Bloody Breathitt" county in the mountains of Eastern Kentucky, which has gained such unenviable notoriety because of its fabled wars, was dedicated recently. It was a notable event, not only in itself but as marking the triumph of the patient and untiring efforts of a little band of philanthropists and workers. Of these the Presbyterian Church of Kentucky, of which the Rev. E. O. Guernant, the mountain evangelist, was the leader. A church in Louisville, of which the Rev. H. Hawes is pastor, was the principal contributor. The hospital is a branch of Highland College, which was established in 188 by Dr. Guernant, and is situated on Punched Creek, in the very heart of the mountains. Its dedication was an impressive occasion, which brought together all the people from the hills and fastnesses of the surrounding country, and was attended by a few visitors from this and other cities, who are deeply interested in a work which means so much for Christianity and humanity in this neglected region. The ceremonies were opened with prayer by Prof. C. E. Willis, and the singing of hymns led by Mrs. M. N. Flowers, of Highland College, and W. W. Peavyhouse, of Jackson. Dr. Guernant read appropriate selections from the Scriptures, and the Rev. A. J. Eversole, of Breathitt county; South Strong, of Jackson, and W. W. Peavyhouse each spoke briefly. The Hon. J. M. McDaniels, of Bentlyville, made the dedication address, which he based upon the verse of Scripture, "And multitudes came unto Him and He healed them of divers diseases."

About 400 men, women and children who had come on foot, in oxwagons, and on horse and muleback from the neighboring mountains were in attendance. At the conclusion of the address a discussion arose as to what name should be given the hospital.

The majority of those present wished it to be called the Guernant Hospital while Dr. Guernant urged that it be named the Hawes Hospital, in honor of the Rev. Mr. Hawes, whose church has furnished the funds which made it possible to build it, as a compromise it was finally agreed to call the institution the Highland Hospital. It was opened at once for active work and will be in charge of Dr. Charles Schuyman, of Nebraska, and a trained nurse from Boston, Miss Elizabeth Eastman.

The building consists of eleven rooms, an operating room, two wards, and six private rooms, besides service rooms, office room and hall. A large amount of bed linen, and some clothes for the charity patients together with money enough to furnish one room, have been donated by several Vassar College girls. All of the other private rooms will be furnished by donations.

The history of the hospital is interesting. A year ago Alexander Herard, of Breathitt county, gave a tract of land on the side of the hill in sight of Highland College to Dr. Guernant for a hospital. But there was no money to be had to build it until the Presbyterian church in Louisville, over which the Rev. Dr. Hawes is pastor, donated the sum of \$1,000. The corner-stone was laid and work began, and the building was completed in a month. The entire cost of the hospital will be \$1,500, and all but \$200 of this had been collected when the hospital was dedicated. A subscription was started by some friends who were present at the dedication, and a committee composed of Miss Elizabeth Spencer, of Oakdale; Mrs. M. M. Flowers, of Highland College; William Peavyhouse, John Hindman and South Strong, of Jackson, were appointed or rather volunteered to solicit the rest of the indebtedness.

Is your husband cross? An irritable, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach trouble by taking Chamberlain's Tablets. For sale by all dealers.
